

International Conference

Current Issues in Coincidence Analysis

3 June – 4 June, 2022, Grand Hotel Terminus, Bergen Norway

Description

This is the first international conference dedicated exclusively to the configurational comparative method of Coincidence Analysis (CNA), which has seen a significant uptick in applications in recent years, particularly in public health. The conference provides a platform for exchange between CNA methodologists and applied researchers. The newest methodological developments and open questions will be presented alongside exemplary applications from public health, surgical research, social and political science.

Program

Friday, 3 June 2022

09:00 - 09:15	Welcome
09:15 - 10:15	Rafael Quintana (Univ. of Kansas): Embracing complexity in social science research
10:15 - 10:30	Break
10:30 - 11:30	Veli-Pekka Parkkinen (Univ. of Bergen): Norms of correctness for configurational causal models
11:30 - 11:45	Break
11:45 - 12:45	Edward Miech (Regenstrief Institute): Validating CNA models with sequestered data: A novel application of Coincidence Analysis using a split-sample design
12:45 - 13:45	Lunch
13:45 - 14:45	Susanne Tafvelin/Ole Henning Sørensen (Umeå Univ./NFA Denmark): Identifying conditions contributing to outcomes of a workplace intervention using Coincidence Analysis
14:45 - 15:00	Break
15:00 - 16:00	Tim Haesebrouck (Ghent University): The populist radical right and military intervention: A CNA of military deployment votes
<hr/>	
18:30	Workshop Dinner at Hotel Terminus

Saturday, 4 June 2022

09:15 - 10:15	Jiji Zhang (Hong Kong Baptist Univ., via Zoom): What kind of difference-making should CNA track?
10:15 - 10:30	Break
10:30 - 11:30	Jonathan Freitas (Univ. of Minas Gerais): Challenges in analyzing mental representations as coincidences
11:30 - 11:45	Break
11:45 - 12:45	Martyna Swiatczak (Univ. of Bergen): Membership inflation in CNA. How over- and underrepresentation of factors affect CNA's performance
12:45 - 13:45	Lunch
13:45 - 14:45	Deborah Cragun (Univ. of South Florida): Practical applications of CNA with real world data: Tips, tricks and areas of confusion
14:45 - 15:00	Break
15:00 - 16:00	Reiping Huang (Northwestern): CNA applications in a surgical research center
16:00 - 16:15	Closing
